G	-	1971	1980
H	-	1981	1995 (current year - 30 years)

b. Vehicles categories

All exhibited vehicles will be divided into 2 basic categories:

1. **"CONCOURS"** – selected vehicles off all brands competing in the Concours d'Elegance competition
2. **"L&K/SKODA"** – only for Laurin & Klement and SKODA brands

Vehicles of the brand L&K or SKODA can take part in the „CONCOURS“ category, if they meet the requirements of the category.

c. Evaluation of the exhibited vehicles

- **Concours d´Elegance** - vehicles will be entered into a competition of elegance and aspire to win one of the classes awards (Class Awards) including the award for the best vehicle (Best of Show) or award for elegance (Elegance Awards) The granting of these awards will be based on an evaluation of the professional jury, comprising of renowned experts.
- **Spectators´ survey** - in the duration of the exhibition the spectators will have an opportunity to vote across all categories for the vehicle they like the most
- **Special awards** – the organizer of the exhibition may announce further special awards (Special Awards)

The results of the evaluation will be announced during the ceremonial red carpet parade in the afternoon portion of the programme.

d. Concours d´Elegance - participation criteria for selecting the vehicles

Vehicle preferences:

Due to the exclusive character of the exhibition and limited spatial capacity, the following vehicles will be preferred:

- Valuable and unusual types of vehicles
- Vehicles of the higher class (luxury types, higher power)
- Vehicles with coachwork from renowned coachwork companies
- Manufacture prototypes and vehicles from limited production
- Vehicles with fascinating history

Further criteria:

- Excellent technical condition – especially mobility, functioning brakes, ability to start the engine without difficulty, functional other parts of the vehicle
- Coachwork and interior– well-preserved original condition or high-quality renovation
- Novelty - preference will be awarded to those vehicles that have not yet taken part in the exhibition or that are exhibited in the Czech Republic for the first time
- Authenticity – preference will be awarded to those vehicles with the least amount of newly made parts

Authenticity:

During selection, the authenticity of the vehicles will be assessed according to the FIVA regulations. The aim is to present vehicles in as original state as possible, in the case of renovated vehicles the renovation should be conducted in such a way that it respects the original state, materials, and technology. Preference will be awarded to those vehicles, whose potential modifications correspond to the period in which the vehicle was originally operated. Potential modifications of the vehicle must correspond to this period in their character and manner of execution. The applied modifications and parts used have to correspond to the period specification as much as possible. Modifications applied in order to operate the vehicle on the road in the present day are an exception.

High-quality constructions (replicas) of vehicles corresponding to the period characteristics may be incorporated into the exhibition (in a special category).
